<p>SHB 1287 2SHB 1287 E2SHB 1287</p> <p>The amended version has no impact on the Council</p>	Preparedness for zero emissions transportation future	Ramel, Hackney, Bateman, Fitzgibbon, Berry, Goodman, Santos, Kloba, Macri, Bergquist, Ormsby, Pollet	<p>The EV infrastructure requirements for buildings must exceed the minimum requirements established in 2019 for residential and commercial buildings to the extent necessary to support anticipated levels of ZEV use. The Council must adopt rules to implement these EV infrastructure requirements by July 1, 2024. This can be done during the regular code adoption cycle.</p> <p>Amended bill specifies that the rules adopted by the Council may be periodically updated thereafter (after July 1, 2024). The modification does not automatically add policy and/or operational impacts because it does not add new requirements, but gives the SBCC the authority to periodically update the rules pertaining to the EV charging infrastructure.</p>	Neutral – Monitor	<p>H Env & Energy Feb 24: Rules Committee relieved of further consideration. Placed on second reading. Mar 3: 2nd substitute bill substituted; floor amendment(s) adopted. Placed on third reading; passed yeas 65; nays 31; absent 0; excused 2</p>	No The date (July 1, 2024) allows SBCC to adopt the rule during the regular code adoption process.	<u>Uncertain</u>
<p>SHB 1184 Companion SB 5087</p> <p>ESHB 1184</p>	On-site nonpotable water systems	Duerr (Prime), Ramel, Dolan, Harris-Talley	<p>Requires the department of health to consult and coordinate with SBCC when developing rules related to on-site nonpotable water systems and when developing the building code language. Although it is unclear at this time how the department of health is planning to coordinate and consult with SBCC, the mandates in this bill have potentially big impacts on SBCC normal course of business.</p> <p>The effective date (July 1, 2022) is unrealistic. Cross connection (contamination) is an issue.</p> <p>Clarifies the requirement that calculations made by property owners or permit holders to address runoff from impervious surfaces must reduce the amount of rainwater that is considered stormwater by the amount of rainwater</p>	Neutral/ Monitor	<p>H Local Govt Feb 24: 1st substitute bill substituted; floor amendment(s) adopted; rules suspended; placed on third reading. HB 1084 Companion SB 5093 (Dead) SHB 1084 (Dead)	Building decarbonization AKA Healthy homes and clean buildings act	Ramel	Changes the statute to require a 70% reduction in net energy consumption by 2027 and eliminate on-site fossil fuel combustion for space and water heating. Energy reduction has been codified as a 70% reduction from 2006 by 2031. The Council has been working toward an incremental approach each three year code cycle. Going from 2031 to 2027 eliminates one cycle, compressing the financial impact for the remaining cycles. Allow cities/counties to amend the residential energy code. <u>Changes to the original bill:</u> Restores the current-law requirements for the 2031 State Energy Code Requires that the State Energy Code, for each code cycle, provide one reach code option for increasingly low-emission energy efficient homes that	Neutral – Monitor	H Env & Energy Feb 17: Public hearing in the H. SB 5280 (Dead)	Administrative procedures	Wilson, J. (Prime), Fortunato	Narrows the rulemaking authority for state agencies, including the SBCC. Currently, code amendments remain valid for years unless modified in the future by the Council. The bill specifies that in those circumstances where an agency is authorized to write a rule, the rule expires on June 1 of the year following the adoption, unless the legislature postpones the expiration. This is a simplified version of SB1052 from the last session.	Neutral/ Monitor	S State Govt & E	Policy impact: Major Fiscal impact: less than \$50,000	Major SBCC may not be able to meet its obligations under RCW 19.27 because the SBCC may lose flexibility and the ability to respond quickly to changing situations, which is typical in the building industry.
SB 5243 (Dead)	Creating efficiency in housing by streamlining approval of engineered plans.	Gildon (Prime), Fortunato, Short	Adds a new section to RCW 19.27 affecting the authority of building departments to enforce the state building code. <ul style="list-style-type: none"> Any building permit applications submitted with plans/specifications signed by an engineer or architect must be deemed complete. Allows building departments to review applications for compliance with zoning or other land use control ordinances, but it may not impose substantial modifications or conditions.
